

■ OG Quick Win Blueprint

Launch Something Real in 20 Minutes

Surprisingly simple. Shockingly real. Designed for your first 'wow' moment.

■ Before You Begin:

This isn't a workbook. It's a mini-mission.

You're about to launch a real digital presence — not a test, not a demo. This is your first asset. Expect momentum. Expect to feel the shift from 'thinking' to 'doing.'

You're 4 simple steps away from saying:
"I did it — and it actually works."

Let's begin.

■ Step-by-Step: Your First Launch

STEP 1: Go to <https://sites.google.com> and create a blank site.

■ What happens next: You'll instantly own a web asset with your name or brand on it. Call it your digital HQ.

STEP 2: Open ChatGPT or your favorite AI tool.

Ask: "Write me a 1-paragraph pitch + 3 benefits for [your niche offer]."

■ You'll get professional copywriting in seconds — no overthinking required.

STEP 3: Copy/paste the results into your site.

Add a button labeled "Start Now" or "Get Access."

■ Each word you add increases trust and makes your site feel *real* to visitors.

STEP 4: Click 'Publish' and copy the live link.

■ This is your *moment.* You now have something live on the internet that anyone can visit.

That's it. You now own a lead-generating, niche-specific, AI-powered landing page.

■ You've Just Launched. Now Let's Monetize It.

You now have something real. But this is just the spark.
